

**Gear up
to world-class
high-performance
equipment**

Corghi, the oldest and largest manufacturer of tire and wheel service equipment in the world, continues to set the standard in providing tire and wheel service products for the passenger, light truck, motorcycle and heavy-duty truck and bus markets.

- **PROTECTION:** All Corghi products are designed to protect the tire and wheel from damage and to protect the technician from injury.
- **QUALITY:** Manufactured in the industry's only ISO 9001-certified facilities to insure optimum quality and protected by the industry's longest warranties, it's easy to see why Corghi is the choice of even the most discriminating buyer
- **TECHNOLOGY:** Corghi is recognized by all major tire manufacturers for its innovation and technological development leadership. Approvals for the many Run-Flat, Ultra-High Performance, PAX and CSR systems by the tire manufacturers, validate Corghi's worldwide acceptance as the leader in the tire and wheel service industry.
- **PREFERENCE:** Corghi is the designated product of choice by many automobile manufacturers worldwide.

McCourt Industries is the exclusive distributor of Corghi equipment in the United States and offers the complete line of tire and wheel service equipment for all segments of the aftermarket. With 250 service centers, a full-time training center in Akron, Ohio, six mobile training and demonstration units, and over 60 trained field representatives, McCourt and Corghi stand ready to serve the total needs of customers nationwide.

- Corghi is Run-Flat, PAX and CSR systems certified by all major tire manufacturers.
- Corghi high-performance tire and wheel service has eliminated the worry about damage.
- Corghi is UHP capable.
- Corghi tire changers and wheel balancers are designed to meet every tire service need for passenger, light truck and motorcycle applications from 8" to 26", plus heavy-duty applications up to 98" in diameter and 48" wide.
